# - A Wilson Heater -

Will Save 40 Per Cent. Of Your Fuel Bill -

The celebrated Hot-Blast Down-Draft creates perfect combustion, the gases and jumes (40 per cent. of the heating power of wood), ordinarily escaping unburned up the chimney in other stoves, are all consumed and turned into to heat in the WILSON. The Wilson is the only heater in the world, which actually burns all of the fuel put into it. The WILSON is air-tight, heat can be regulated to any degree, and will hold a fire for 36 hours. What you save on fuel will pay for a WILSON HEATER in one season. Burns Wood
